PROFESSIONAL SUMMARY

Angular Front-End Developer with 3+ years of experience building large-scale, enterprise-grade healthcare applications using Angular, TypeScript, and RxJS. Specialized in building modular, reusable Angular component architectures, reactive forms, route guards, and responsive, accessible UIs with Angular Material, Prime NG and Bootstrap. Skilled at consuming and integrating REST APIs, JWT authentication, and state-driven UI patterns. Delivered multiple modules under India's ABDM digital health initiative (ABHA, HFR, HPR, NHCX, EMR), consistently translating complex healthcare workflows into clean, performant, user-friendly Angular applications. Comfortable across the full MEAN stack (Node.js, Express.js, MongoDB) and experienced with Agile delivery, Git-based CI/CD, and cross-functional collaboration.

TECHNICAL SKILLS

Front-End	Angular, TypeScript, JavaScript (ES6+), RxJS, HTML5, CSS3, SCSS, Bootstrap, Angular Material, prime NG
Back-End	Node.js, Express.js
Database	MongoDB, Mongoose
API & Tools	REST APIs, FHIR, JWT Authentication, Swagger, Postman, API Integration
Version Control	Git, GitHub, Bitbucket, CI/CD, VS Code
Practices	Agile/Scrum, Code Reviews, Unit Testing & Debugging, Responsive Design

WORK EXPERIENCE

Angular Developer ***Suvarna Technosoft Pvt. Ltd. (Healthcare IT Company) — 3+ Years***

- Developed and maintained large-scale Angular applications for ABDM national healthcare solutions, serving as the primary front-end developer across multiple product modules.
- Built reusable Angular components, reactive forms, route guards, and responsive UI using Angular Material and Bootstrap, improving development speed and UI consistency across projects.
- Integrated REST and NHCX (FHIR-based) APIs with Angular and Node.js applications, ensuring reliable data exchange between front-end and backend services.
- Developed backend APIs using Node.js, Express.js, and MongoDB to support Angular front-end features end-to-end.
- Participated in Agile/Scrum ceremonies, code reviews, debugging, testing, and production deployments.
- Collaborated closely with QA, backend, and business teams to deliver production-ready, healthcare-compliant applications on schedule.

KEY PROJECTS

ABHA — Ayushman Bharat Health Account (M1, M2, M3) ***Angular Front-End Developer***

- Delivered 3 milestone releases (M1, M2, M3) for the ABHA module under the national ABDM initiative.
- Built complete Angular front-end workflows for health account creation, linking, and management.
- Ensured compliance with NHA design guidelines and implemented responsive UI across all milestones.
- Worked closely with backend and QA teams to ensure timely, high-quality delivery of each milestone.

HFR & HPR — Health Facility / Health Professional Registry ***Angular Front-End Developer***

- Developed Angular front-end modules for Facility Registration (HFR), enabling hospitals and clinics to register on the national health registry.
- Built Doctor Registration (HPR) screens for healthcare professional onboarding.
- Implemented dynamic forms, validations, and multi-step registration flows using Angular Reactive Forms.

NHCX — National Health Claims Exchange ***API Integration Developer (Node.js + MongoDB)***

- Integrated NHCX APIs to enable health insurance claim submission, adjudication, and status tracking within Angular applications.
- Developed Angular and Node.js service layers to handle FHIR-based payloads.
- Performed end-to-end testing of claim flows across multiple insurance payer integrations.

EMR — Electronic Medical Records (IP & OP) ***Angular Front-End Developer***

- Developed Angular front-end modules for both Inpatient (IP) and Outpatient (OP) EMR systems.
- Built modules for patient registration, appointment scheduling, clinical notes, prescriptions, and discharge summaries.
- Ensured clean, scalable Angular component architecture following best practices.

EDUCATION

M.Sc. — Computer Science *University College of Science, Satavahana University | 2020 | 72%*

B.Sc. — Mathematics, Physics & Computer Science *Chanakya Degree & PG College,Satavahana University | 2018 |60%*

ACHIEVEMENTS & ACTIVITIES

- Contributed to the development of an NHA/ABDM-certified ABHA digital healthcare solution.
- Experience contributing Angular front-end solutions to national digital healthcare initiatives under ABDM.
- NSS University-Level Award recipient.

PERSONAL DETAILS

Date of Birth: 20 May 1997
Languages Known: English, Telugu, Hindi
Nationality: Indian
Location: Hyderabad, Telangana
