

RAKESH DHOBILA

MEAN Stack Developer | Angular Developer

✉ rakeshdhobila006@gmail.com | 📞 8639822946 | Hyderabad, India

PROFESSIONAL SUMMARY

MEAN Stack Developer with 3+ years of experience in developing scalable web applications using MongoDB, Express.js, Angular, and Node.js. Skilled in building responsive UI, RESTful APIs, database integration, authentication, and debugging. Strong knowledge of Angular, TypeScript, JavaScript, Node.js, Express.js, MongoDB, and Git.

TECHNICAL SKILLS

Front-End	Angular (v8–v18), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Angular
Back-End	Node.js, Express.js
Database	MongoDB, Mongoose
API & Tools	RESTful APIs, NHCX API Integration, Postman, Swagger
Version Control	Git, GitHub, Bitbucket
Other	ABDM Integration, FHIR Standards, Agile/Scrum, VS Code

WORK EXPERIENCE

MEAN Stack Developer | Healthcare IT Company

(3+ Years)

- Developed and maintained Angular-based front-end modules for large-scale healthcare projects under the ABDM ecosystem.
- Built responsive and accessible UI components using Angular Material, CSS, and Bootstrap.
- Integrated RESTful APIs and NHCX APIs with the front-end for seamless data exchange.
- Collaborated with cross-functional teams using Agile/Scrum methodology.
- Contributed to back-end services using Node.js and Express.js; managed data with MongoDB.
- Participated in code reviews, testing, and deployment activities.

KEY PROJECTS

ABHA – Ayushman Bharat Health Account (M1, M2, M3) | Front-End Developer

- Delivered 3 milestone releases (M1, M2, M3) for the ABHA module under the ABDM initiative.
- Built complete front-end workflows for health account creation, linking, and management using Angular.
- Ensured compliance with NHA design guidelines and implemented responsive UI across all milestones.
- Worked closely with backend and QA teams to ensure timely delivery of each milestone.

HFR & HPR – Health Facility Registry / Health Professional Registry | Front-End Developer

- Developed front-end modules for Facility Registration (HFR) — enabling hospitals and clinics to register on the national health registry.
- Built Doctor Registration (HPR) screens for healthcare professional onboarding.
- Implemented dynamic forms, validations, and multi-step registration flows using Angular Reactive Forms.

NHCX – National Health Claims Exchange | *API Integration Developer*

- Integrated NHCX APIs to enable health insurance claim submissions, adjudication, and status tracking.
- Developed API service layers in Node.js and Angular to handle FHIR-based payloads.
- Performed end-to-end testing of claim flows across multiple insurance payer integrations.

EMR – Electronic Medical Records (IP & OP) | *Front-End Developer*

- Developed front-end for both Inpatient (IP) and Outpatient (OP) EMR modules.
- Built modules for patient registration, appointment scheduling, clinical notes, prescription, and discharge summaries.
- Ensured clean, scalable component architecture using Angular best practices.

EDUCATION

M.Sc – Computer Science

2020 | 70%

University College of Science, Satavahana University

B.Sc – Mathematics, Physics, Computer Science

2017 | 60%

Chanakya Degree & PG College, Satavahana University

ACHIEVEMENTS & ACTIVITIES

- Received NSS Award at University level for outstanding social service.
- Active participant in organizing college cultural programs and events.

PERSONAL DETAILS

Date of Birth: 20 May 1997

Languages Known: English, Telugu, Hindi

Nationality: Indian

Location: Hyderabad, Telangana
